JavaScript cheatsheet – https://github.com/Serrin/Celestra/

Web Storage api	element.dataset & data-* attributes	element.classList
IE8 compatible.	- element data-* attributes	<pre>element.classList.add(String[,String]);</pre>
	- IE11 compatible	<pre>IE10+11: yes (except the multiple arguments)</pre>
localStorage:	- no methods	
localStorage.length;	- no events	<pre>element.classList.remove(String[,String]);</pre>
<pre>localStorage.key(index);</pre>		Removing a class that does not exist, does
<pre>localStorage.getItem(key);</pre>	camelcase:	NOT throw an error.
<pre>localStorage.setItem(key, data);</pre>	element.data-name	<pre>IE10+11: yes (except the multiple arguments)</pre>
<pre>localStorage.removeItem(key);</pre>	-> element.dataset.name	
<pre>localStorage.clear();</pre>	element.data-first-second	<pre>element.classList.contains(String);</pre>
	<pre>-> element.dataset.firstSecond</pre>	IE10+11: yes
sessionStorage:		
sessionStorage.length;	set:	<pre>element.classList.toggle(String[,force]);</pre>
<pre>sessionStorage.key(index);</pre>	<pre>element.dataset.name = "value";</pre>	- When only one argument is present: Toggle
<pre>sessionStorage.getItem(key);</pre>	<pre>element.dataset["name"] = "value";</pre>	class value; if class exists then remove it
<pre>sessionStorage.setItem(key, data);</pre>	element.setAttribute("data-name",	and return false, if not, then add it and
<pre>sessionStorage.removeItem(key);</pre>	"value");	return true.
<pre>sessionStorage.clear();</pre>	<pre>element["data-name"] = "value";</pre>	- When a second argument is present: If the
		second argument evaluates to true, add
hasItem:	get:	specified class value, and if it evaluates
<pre>localStorage.getItem(key) !== null</pre>	element.dataset.name;	to false, remove it.
	<pre>element.dataset["name"];</pre>	IE10+11: yes (except the second argument)
setJSON:	<pre>element.getAttribute("data-name");</pre>	
<pre>localStorage.setItem(key,</pre>	<pre>element["data-name"];</pre>	<pre>element.classList.item(Number); IE10+11: yes</pre>
<pre>JSON.stringify(object));</pre>		
	remove:	<pre>element.classList.length; IE10+11: yes</pre>
getJSON:	<pre>element.removeAttribute("data-name");</pre>	
<pre>JSON.parse(localStorage.getItem(key));</pre>		<pre>element.classList.replace(oldClass,newClass);</pre>
		IE10+11: No and the method isn't compatible
		with the Safari and mobile browsers too.
		IE10+IE11 don't have support for classList on
		SVG or MathML elements.
		Remove all classes:
		<pre>element.className = "";</pre>
